

NOBISKRUG

| ABU DHABI MAR

Cooperation between Nobiskrug and [Messerschmitt](#)

Nobiskrug GmbH and Messerschmitt Yachts GmbH are set to become partners. The scope of the cooperation encompasses engineering and construction of future Messerschmitt Yachts longer than 60m.

The "MTT-Conqueror", available in a 70m and 90m version, is the first yacht of this size designed by Messerschmitt Yachts. The design has a straight-lined, masculine and sporty silhouette with a subtle military look. Further yachts are planned.

In realizing these projects, Nobiskrug is exclusively responsible for the engineering and construction of the Messerschmitt yacht designs longer than 60m.

Due to this exclusive commitment to Nobiskrug, Messerschmitt Yachts is certain that the use of innovative, top-class materials and the high-quality construction of the Messerschmitt yachts are guaranteed.

Like Messerschmitt, Nobiskrug also stands for high-quality work "Made in Germany".

Nobiskrug GmbH:

Nobiskrug is a shipyard, situated at the river Eider in Rendsburg with more than 100 years of experience and tradition in the construction of large seagoing vessels. The shipyard focuses on the newbuilding and conversion of mega yachts longer than 60m. Furthermore Nobiskrug is specialized in the maintenance and repair of naval vessels. Since summer 2009 Nobiskrug is part of Abu Dhabi Mar. The French shipyard CMN and ADM Shipyards are also part of this group.

[Messerschmitt Yachts GmbH:](#)

Messerschmitt Yachts is an exclusive Yacht brand, established by Felix P. Messerschmitt, proprietor and owner of the trademark rights. As tradition dictates, the name Messerschmitt is dedicated to innovation and lightweight construction. Felix Messerschmitt, whose grandfather was a first cousin of Professor Willy Messerschmitt, the world famous aircraft designer, will adopt the principles of his ancestors and apply these to the yacht industry.
