

YARD SNAPSHOT: NOBISKRUG

Having been acquired by the Abu Dhabi MAR Group in 2009 Nobiskrug is now part of a formidable mother company that also owns CMN, Abu Dhabi MAR and is also finalising the acquisition of an 80% stake in Blohm and Voss from TKMS. Building between 60m and 220m there are currently five yachts in the order book, totalling over 350m in length together, with Hull 779, *Jamaica Bay* now undergoing finishing work prior to delivery this year. The yard also saw recent success at the 2009 World Superyacht and Showboats International Awards with *Siren* (delivered 2008). Refit work at the yard includes the major refit of a 45m yacht, and the conversion of an 86m yacht. On top of this, with Hulls 780 and 781 due to follow *Jamaica Bay* into the water, 2010 looks set to be a busy year for Nobiskrug.
